I live to learn their story Who've suffered for my sake; To emulate their glory, And follow in their wake; Bards, patriots, martyrs, sages; The noble of all ages; Whose deeds crowd history's pages, And time's great volume make.

I live to hold communion With all that is divine; To feel therein is union Twixt nature's heart and mine To profit by affliction Reap truths from fields of fiction. Grow wiser from conviction, And fulfil each great design.

I live to hail that season By gifted minds foretold, When man shall live by reason, And not alone by gold! When man to man united And every wrong thing righted. The whole world shall be lighted As Eden was of old.

I live for those who love me And for those who know me true. For the Heaven that smiles above me, And awaits my spirit, too. For the cause that lacks assistance ; For the wrong that needs resistance : For the future in the distance,
